GANESH RATHOD

Salesforce Marketing Cloud Email Developer | Technical Delivery Lead | 2,000+ Responsive Email Templates | Deliverability (SPF/DKIM/DMARC) | Segmentation, Automation & Integrations | Hospitality Martech

rgrathod2012@gmail.com | +91 9611263810 | Hyderabad, India | linkedin.com/in/ganeshlrathod

PROFESSIONAL SUMMARY

Email and marketing-technology specialist with 7 years of experience, including 4 years in hospitality martech and CRM SaaS, now specialising in Salesforce Marketing Cloud (Email Specialist certification in progress). Built and shipped 2,000+ dynamic, responsive production email templates using reusable content blocks and data-driven personalisation, and owned campaign setup, audience segmentation, SQL-based data work and PMS data integrations for enterprise hotel brands across APAC, EMEA, US and UK. Deep, hands-on expertise in email deliverability and sender authentication (SPF/DKIM/DMARC, inbox-placement diagnostics, suppression handling) and in GDPR, CAN-SPAM and DPDP consent management. Engineered NyshCRM, a multi-tenant email marketing platform with segments, campaign automations and a drag-and-drop template editor compiling to client-safe HTML. Led two delivery teams (10+ members) and comfortable owning LOE, SOWs and SLAs. HubSpot Marketing Software certified; won Cendyn's internal AI Hackathon after cutting a 150-hour build to 5 hours with Gen AI.

CORE SKILLS

Salesforce Marketing Cloud (training + certification in progress): Email Studio, Content Builder, Journey Builder, Automation Studio, Contact Builder & Data Extensions, AMPscript, SQL Query Activities, Marketing Cloud Connect

Email Development: Dynamic HTML/CSS email, responsive & mobile-first templates, reusable content blocks, dynamic content & personalisation, cross-client rendering & testing, A/B testing, landing pages, MJML

Data, Segmentation & Automation: Audience segmentation, relational data modelling, SQL, scheduled data imports, lifecycle campaign and automation design, CRM & marketing automation

Deliverability & Compliance: SPF, DKIM, DMARC, sender authentication, inbox-placement diagnostics, bounce & suppression management, sender reputation; GDPR, CAN-SPAM, DPDP, consent & preference management

Platforms & Integrations: Salesforce CRM, HubSpot (certified), Cendyn CRM/eInsight; REST APIs, webhooks, Postman, PMS integrations (Oracle OPERA, Mews, SynXis), data migration, CMS & loyalty platform configuration

Email QA & Release: Rendering, link and personalisation checks, test sends, UAT sign-off, data integrity validation, release readiness

Technical Delivery: Enterprise customer onboarding, technical discovery & requirements gathering, solution design documentation, LOE estimation, SOW authoring, SLA management, escalation handling, Agile/Scrum

Engineering: HTML5/CSS3, JavaScript/jQuery, TypeScript, PHP, SQL

Gen AI: Prompt engineering, GitHub Copilot, Claude, OpenAI API, AI-assisted email/HTML generation and delivery workflow automation

Tools: Jira, Confluence, Target Process, Zendesk, Postman, Git, BitBucket, Azure Pipelines

Leadership: Team management (10+), mentoring & code-quality standards, cross-region delivery, stakeholder management, customer retention

WORK EXPERIENCE

Cendyn India Pvt Ltd — Hyderabad

Team Lead, Technical Delivery **May 2023 – Aug 2026**

- Owned end-to-end delivery of dynamic, personalised, mobile-first HTML email campaigns and landing pages for enterprise hospitality clients — reusable content blocks, data-driven dynamic content, responsive template architecture and pre-send QA
- Directed sender authentication (SPF/DKIM/DMARC) setup and inbox-placement diagnostics in every customer onboarding, troubleshooting bounce, suppression and reputation issues to protect deliverability
- Set up PMS guest-data integrations (Oracle OPERA, Mews, SynXis) feeding the CRM, enabling audience segmentation and lifecycle campaigns for hotel brands
- Led technical discovery with hotel marketing and IT stakeholders across APAC, EMEA, US and UK, translating campaign, audience-data and integration requirements into documented technical designs and delivery plans
- Led customer platform migrations (Cendyn eInsight → Cendyn CRM; legacy loyalty platform → Cendyn CMS), owning technical scope, timeline and client communication
- Managed two teams — Technical Delivery and Professional Services, 10+ members combined — setting email code-quality standards and mentoring consultants and developers day-to-day
- Applied Gen AI to delivery workflows, cutting a 150-hour loyalty web development build to 5 hours; won Best Project at Cendyn's internal AI Hackathon
- Acted as primary client-facing escalation point for technical, integration and deliverability issues; partnered with Product on bug triage and release validation
- Provided LOE estimates, co-authored Statements of Work and managed SLAs with sales, pre-sales and client stakeholders

- Delivered responsive websites and loyalty platform builds for hotel clients; drove performance optimisation improving Core Web Vitals and load times

Professional Services Team Lead **Jul 2022 – May 2023**

- Built and shipped 2,000+ responsive, personalised email templates and set up campaigns with audience segmentation across multiple hotel brands
- Led a cross-region team building dynamic, data-driven email templates and landing pages for enterprise hospitality clients
- Introduced AI-assisted HTML/CSS email generation and content structuring, improving team output velocity and reducing revision cycles
- Defined LOE across product lines and reviewed Statements of Work to support sales in scoping and pricing new engagements
- Managed churn-reduction initiatives and critical regional rollouts; built revenue dashboards to improve billing transparency

Aaryaman Geo Info Solutions

Web Developer **Sep 2019 – Jul 2022**

- Designed and maintained client websites using HTML, CSS, JavaScript and PHP
- Streamlined deployment workflows, reducing release time by 30%
- Translated business requirements into working web solutions with cross-functional teams

PROJECTS

NyshCRM — Email Marketing & CRM Platform · Solo developer · nyshcrm.com

- Engineered a drag-and-drop email template editor (similar in concept to SFMC Content Builder) compiling reusable content blocks to responsive, client-safe HTML via MJML
- Built a multi-tenant email marketing platform end-to-end (~64K LOC TypeScript, 30+ REST modules) covering contacts, segments, campaigns, automations and analytics
- Shipped async campaign delivery: scheduled sends, background workers, provider webhooks, and suppression/unsubscribe handling
- Enforced tenant isolation with Clerk Organizations and PostgreSQL row-level security, with entitlement and quota middleware on every request

dscan — DNS Email Authentication Scanner

- TypeScript CLI that audits SPF, DKIM and DMARC records for a domain and reports misconfigurations affecting inbox placement

Loyalty Website Delivery — Cendyn

- Led end-to-end delivery of 20+ loyalty web platforms for hospitality brands across APAC and the US

CERTIFICATIONS & LEARNING

- Salesforce Certified Marketing Cloud Email Specialist — in progress
- HubSpot Marketing Software Certification — HubSpot Academy (2026)
- AI Tools for Developers — GitHub Copilot, OpenAI API, prompt engineering
- Cendyn Learning & Development — technical, leadership and management workshops

ACHIEVEMENTS

- Winner, Best Project — Cendyn internal AI Hackathon
- Nominated twice for Employee of the Quarter, Cendyn India
- Promoted from Professional Services Team Lead to Team Lead, Technical Delivery within 10 months

EDUCATION

Master of Computer Applications (MCA) — R.V. College of Engineering, Bengaluru **2015 – 2018**

Bachelor of Computer Applications (BCA) — Vivekananda College, Kalaburagi **2012 – 2015**
