GANESH RATHOD

Technical Delivery Manager | Enterprise SaaS Implementation & GenAI-Driven Delivery | Integrations · Quality & Release Management · Team Leadership

rgrathod2012@gmail.com | +91 9611263810 | Hyderabad, India | linkedin.com/in/ganeshlrathod

PROFESSIONAL SUMMARY

Technical delivery and implementation leader with 7 years of experience delivering enterprise-level SaaS implementations, including 4 years in hospitality martech and CRM SaaS. Led two delivery teams at Cendyn (10+ members combined), owning end-to-end customer onboarding, system integrations, quality controls and release readiness, platform migrations, and cross-functional delivery for enterprise clients across APAC, EMEA, US and UK. Applied Gen AI to delivery workflows, reducing a 150-hour build to 5 hours; winner of Cendyn's internal AI Hackathon. Experienced developing team structures and mentoring engineers while managing executive-level stakeholder relationships — and staying hands-on across React/TypeScript, Node, MJML and integration APIs, while owning scope, LOE, SOWs and SLAs.

CORE SKILLS

Delivery & Implementation: Enterprise-level customer onboarding, product migrations, team structuring & resource planning, LOE estimation, SOW authoring, SLA management, escalation handling, Agile/Scrum & Waterfall

Quality & Release Management: Release readiness, quality controls, UAT sign-off, data integrity validation, release process documentation and standardization

Email & Martech: Email deliverability (SPF, DKIM, DMARC), inbox placement, responsive email template development, MJML, campaign creation, CRM & marketing automation

Integrations: PMS integrations, REST API design, webhooks, CMS and loyalty platform configuration

Gen AI: Prompt engineering, GitHub Copilot, Claude, OpenAI API, AI-assisted delivery workflow automation and code-review workflows

Engineering: React, Next.js, TypeScript, JavaScript, Node.js, Express, HTML5/CSS3, Tailwind, PHP, Smarty, PostgreSQL, MongoDB

Tools: Jira, Confluence, Target Process, Zendesk, Git, BitBucket, Azure Pipelines

Leadership: Team management (10+), team structuring & talent development, cross-region delivery, mentoring, stakeholder management, Time Management, Customer Retention, Subject Matter Expert

WORK EXPERIENCE

Cendyn India Pvt Ltd — Hyderabad

Team Lead, Technical Delivery May 2023 – Aug 2026

- Managed two teams — Technical Delivery and Professional Services, 10+ members combined — owning team structuring, resource planning, work allocation, performance reviews and delivery quality
- Owned end-to-end onboarding for new hotel customers: requirement discovery, PMS integration setup, email authentication (SPF/DKIM/DMARC), platform configuration, training and go-live
- Applied Gen AI to loyalty web development, cutting a recurring 150-hour build to 5 hours; also used AI tooling to speed up code review, documentation and email template production
- Won Best Project at Cendyn's internal AI Hackathon with an AI-powered tool that automated repetitive project delivery tasks and status reporting
- Led customer product migrations from Cendyn eInsight to Cendyn CRM, and from Cendyn's legacy loyalty platform to Cendyn CMS — owning technical scope, timeline and client communication
- Acted as primary client-facing contact across the delivery lifecycle: requirement calls, status updates and escalations with hotel marketing and IT stakeholders across APAC, EMEA, US and UK
- Supported existing customers as the escalation point for technical, integration and deliverability issues
- Partnered with the Product team on bug triage, feature feedback and release validation
- Provided Level of Effort estimates, co-authored Statements of Work and managed SLAs with sales, pre-sales and client stakeholders
- Delivered responsive websites and loyalty platform builds for hotel clients; drove performance optimisation improving Core Web Vitals and load times
- Mentored developers on React practices, Git workflows, AI tooling and clean-code principles

Professional Services Team Lead Jul 2022 – May 2023

- Led a cross-region team delivering frontend projects with dynamic CMS and templating integrations for enterprise hospitality clients
- Built 2,000+ responsive email templates and supported campaign creation across multiple hotel brands
- Introduced AI-assisted HTML/CSS generation and content structuring, improving team output velocity and reducing revision cycles
- Managed churn-reduction initiatives and critical regional rollouts
- Defined LOE across product lines and built revenue dashboards to improve billing transparency
- Reviewed SOWs to support sales in scoping and pricing new engagements

Aaryaman Geo Info Solutions

Web Developer Sep 2019 – Jul 2022

- Designed and maintained client websites using HTML, CSS, JavaScript and PHP
- Streamlined deployment workflows, reducing release time by 30%
- Translated business requirements into working web solutions with cross-functional teams

PROJECTS

NyshCRM — Hospitality CRM & Email Template Platform · Solo developer · nyshcrm.com

- Built a multi-tenant SaaS platform end-to-end (~64K LOC TypeScript, 30+ REST modules) covering contacts, companies, segments, campaigns, automations and analytics
- Engineered a drag-and-drop email template editor (dnd-kit, Tiptap, Zustand + Immer) compiling to responsive, client-safe HTML via MJML
- Enforced tenant isolation with Clerk Organizations and PostgreSQL row-level security, with entitlement and quota middleware on every request
- Shipped async campaign delivery: background workers, schedulers, provider webhooks, suppression/unsubscribe handling and S3 presigned uploads
- Set the quality bar with strict TypeScript project references, ESLint and Playwright end-to-end tests on CI-gated deploys

dscan — DNS Email Authentication Scanner

- TypeScript CLI that audits SPF, DKIM and DMARC records for a domain and reports misconfigurations affecting inbox placement

Loyalty Website Delivery — Cendyn

- Led end-to-end delivery of 20+ loyalty web platforms for hospitality brands across APAC and the US

ACHIEVEMENTS

- Winner, Best Project — Cendyn internal AI Hackathon
- Nominated twice for Employee of the Quarter, Cendyn India
- Promoted from Professional Services Team Lead to Team Lead, Technical Delivery within 10 months
- Built and delivered 2,000+ responsive email templates across enterprise hospitality clients

EDUCATION

Master of Computer Applications (MCA) — R.V. College of Engineering, Bengaluru 2015 – 2018

Bachelor of Computer Applications (BCA) — Vivekananda College, Kalaburagi 2012 – 2015

CERTIFICATIONS & LEARNING

- AI Tools for Developers — GitHub Copilot, OpenAI API, prompt engineering (self-directed and applied at work)
- Daily Scrum Management and Agile project ceremonies
- Technical, leadership and management workshops — Cendyn Learning & Development Program
